Re: MB Docket Number 05-192

Dear Chairman Martin, Commissioners Abernathy, Copps, and Adelstein:

Hispanas Organized for Political Equality (HOPE) is pleased to submit this letter of support for Comcast Corporation. Comcast has been a strong corporate partner over the years, committed to HOPE's mission of ensuring political and economic parity for Latinas in California.

As part of our partnership, Comcast has invested both financial and personnel resources in the development of Latina Leadership in California. Comcast has been a continuous supporter of HOPE's Latina History Day, an annual conference where professional Latinas gather to discuss community issues, celebrate role models, and embrace Latina culture. Furthermore, Comcast personnel have served on conference steering committees for Latina History Day and have taken active roles as experts and presenters at HOPE's annual advocacy conference, Latina Action Day, Sacramento. This commitment of resources demonstrates a genuine effort by Comcast to celebrate diversity and invest in California's growing Latino community.

Hispanas Organized for Political Equality is a nonprofit, nonpartisan organization committed to ensuring political and economic parity for Latinas through leadership, advocacy, and education to benefit all communities and the status of women. Founded in 1989, HOPE serves over 3000 Latinas annually. Our personal experience with Comcast makes us confident that Comcast is committed to working with ethnic communities across the country and dedicating substantial resources to fostering diversity. For all the reasons stated above, HOPE is proud to call Comcast a responsible corporate citizen who invests in all the communities of California.
